VOLUNTEERING

CENGA
CENGA is a important student community at Çukurova University.
Sponsor Team Member(July 2020 - May 2021)
I contacted various companies and looked for sponsors.

ABOUT ME

I am a passionate and highly motivated Computer Engineer eager to gain experience in technology. As a team player with strong communication and problem-solving skills, I am always ready to take on new challenges. As a recent graduate, I aim to excel as a .NET developer, contribute to your team, and help achieve your goals.

EXPERIENCES

Sipay(October 2023 - March 2024)
İstanbul/Turkey
Development Management Trainee (Full-Time)
I worked for six months in the IT department at Sipay Electronic Money Payment Systems. I developed tasks assigned to me before each sprint and followed the functioning of the business processes.

Patika & Sipay .NET Bootcamp(May 2023 - June 2023)
Received separate training from Sipay and Patika. Completed weekly assignments, and the final project at the end of the process provided necessary knowledge acquisition on the .NET Web API side.

Adana Chamber of Commerce(April 2023 - June 2023)
Adana/Turkey
Volunteer Intern Software Engineer
Worked on the "Cinema Management System" project (details in "Projects" below).

VData Technology(August 2022 - September 2022)
Adana/Turkey
Intern Network Engineer
Worked on the "Cisco Packet Tracer" simulation project, creating and configuring complex network topologies using all existing devices in Cisco Packet Tracer.

BSD Computer(June 2022 - August 2022)
Adana/Turkey
Intern Network Engineer
Configured devices in "Cisco Packet Tracer" and created simple network topologies.

PROJECTS

Cinema Management System(April 2023 - June 2023)
The backend of this project was designed using layered architecture and developed in C# with .NET 6. MSSQL was used as the database, with data access facilitated by Entity Framework. The frontend was developed using HTML, CSS, JavaScript, and Bootstrap.
TThe project's goal was to design a real-life applicable Online Cinema Management System. Administrators can add, delete, or update user and movie information, including categories. Logged-in users can view the movie list, go to the movie detail page, add movies to their basket, and proceed to the payment system for checkout.

CERTIFICATES AND COURSES

-Web Development Training (C#+JAVASCRIPT)
Sadık Turan | April 2023 - June 2023
-Web Application Security Training
Ramin Karimkhani / Privia Security - CENGA | March 2021

HOBBIES AND ACTIVITIES

Reading classic and psychological genre books, working out, and following developments in the fields of computer science, information, and technology.
